

**PolyPort**

*crowd-sourcing your way*

## Looking for CTO for PolyPort

### We

We are a peer to peer shipping platform aiming to redefine logistics and transport today. We develop a web application and smart phone app, which matches your everyday travel movements with sending needs around you. Today, 70% of all travel movements remain unused. By matching shipping needs with unused capacities on professional or private transport capacities, our service offers a green and convenient delivery option. No matter whether you are searching for the best way to get your IKEA furniture home or when you are shipping your potatoes directly from the farmer to your home in Zurich. We have successfully pitched the idea at multiple competitions and have the capital to start now.

Now we need your IT Power!

### You

You are enthusiastic and excited to take on the responsibility for the IT development. We are looking for a long term team member who will found with us.

- BSc or MSc in Computer Science
- Project experience Webdevelopment (PHP/Ruby/Python/JavaScript/HTML/CSS...)
- Good experience with databases (MySQL)
- fluent in German or English

### We offer

- enthusiastic team
- strategic development of company
- network of mentors
- support with living costs
- co-founder position

**PolyPort is supported by IKEA Switzerland, AXA Winterthur and WWF Switzerland**
